

A to Z Services to Members

ACADEME LINKAGES - SEIPI networks with the academic community and advocates the continuous curriculum advancement of engineering courses.

ADVOCACY - SEIPI provides strong and programmed efforts ensuring that industry issues are being elevated to the highest level of government.

ALLIED AND SUPPORT INDUSTRY - SEIPI initiates programs for the development of the allied and support industry, particularly components manufacturing, tool and die, packaging, chemicals, machinery and equipment, among others.

ARBITRATION - SEIPI polices and promotes friendly competition within the industry. It likewise sets gentleman's agreements on various modes of doing business such as the recruitment of personnel, etc.

BOARD MEETINGS - The SEIPI Board of Trustees meet every quarter to discuss relevant issues and to give strategic direction to the Office of the President.

BUSINESS CENTER - The SEIPI Headquarters serves as a complete business center catering to members' various needs. It houses a 100-seat capacity training room for seminars and meetings, and a well equipped Board Room.

BUSINESS OUTLOOK - SEIPI provides updates on the industry's performance and global business forecasts to members, government, and media. This is released quarterly and annually.

CEO FORUM - SEIPI conducts an annual business and technology forum of CEOs, Presidents, General Managers and other Senior Executives of the semiconductor and electronics companies, together with the Philippine President.

CERTIFICATION AND ENDORSEMENT DOCUMENTS - SEIPI prepares certification / endorsement papers for its members regarding their business activities and transactions with the government (e.g. pioneer status, etc.)

COMPENSATION SURVEY - SEIPI conducts an annual total remuneration survey aimed at providing participating member-companies with opportunities to share and exchange compensation and benefits data. The information database enables companies to benchmark and fine-tune their HR practices and positions.

CONFERENCES AND SEMINARS - SEIPI offers members and other industry players the opportunity to receive regular updates, and discuss major issues and concerns.

CONSULTANCY - SEIPI provides consultancy services to interested local and foreign parties who wish to venture into business opportunities in the Philippine semiconductor and electronics industry.

CORPORATE SOCIAL RESPONSIBILITY - SEIPI contributes to the cause of numerous social and developmental projects in the Philippines by providing manpower and financial assistance to institutions such as Children's Hour, Habitat for Humanity, Gawad Kalinga and other socio-civic institutions.

COUNTRY PROMOTION AND IMAGE MARKETING - SEIPI, together with the Department of Trade and Industry (DTI), actively promotes the Philippines as the global choice for doing electronics business through an industry-wide campaign.

DIRECTORY - SEIPI annually publishes the membership directory online, which contains pertinent data about its members. It increases members' visibility among government and business makers for necessary partnerships and dialogues.

E-NEWSLETTER - SEIPI publishes the e-Newsletter regularly, which contains news about events, activities, membership, as well as industry data and position papers.

ENVIRONMENT - SEIPI, through the Association of Electronics and Semiconductor Companies for Safety and Health, Environment and Plant Engineering (AESSEP), provides a venue for sharing of best-known practices on environmental health and safety, plant engineering and facilities maintenance, space utilization, and operation reliability. It liaises with the Department of Environment and Natural Resources (DENR) and other concerned government and non-governmental organizations involved in environmental issues. Members are encouraged to practice environmentally friendly standards e.g. ISO 14001, OSHAS 18001.

EXHIBITION - SEIPI organizes exhibitions for the electronics industry to showcase the industry's high-tech capabilities and sourcing requirements.

FINANCE - SEIPI, through the Association of SEIPI Finance Executives (ASEFEX), serves as a venue to advocate the development, implementation and advancement of the industry on relevant financial issues such as taxation, finance and accounting.

FOREIGN ELECTRONICS ORGANIZATIONS LINKAGE - SEIPI has linkages with foreign electronics organizations in Japan, Korea, Taiwan, China, Singapore, Thailand, Malaysia, Indonesia, Hong Kong, Vietnam, Israel, France, Germany, Australia, and USA to discuss relevant global issues and concerns, exchange information on services and data, and strengthen foreign relations.

FOREIGN INSTITUTIONS LINKAGE - SEIPI partners with foreign institutions such as JETRO, JICA, and NRI (Japan), CBI (Netherlands), CIDA (Canada), Inwent and GPCCI (Germany), KOTRA (Korea), STDB and AEIS (Singapore) USAID (USA) and others, to pursue developmental projects and programs for the benefit of the industry.

GENERAL MEMBERSHIP - The SEIPI General Membership is a cluster of regular, associate, and affiliate member companies that work towards the growth and development of the Philippine semiconductor and electronics industry.

GENERAL MEMBERSHIP MEETINGS - The quarterly general membership meetings gather together the top officers and executives of the largest semiconductor and electronics companies in the Philippines, providing members with a wealth of opportunities to exchange information and initiate business relationships.

GLOBAL COMPETITIVENESS - SEIPI provides a venue for enhancing the competitiveness of members by providing opportunities to share and learn the latest global best practices and best-known methods in high-technology manufacturing.

GOVERNMENT RELATIONS - SEIPI actively works and coordinates with various government agencies through regular meetings in order to address the different industry issues and concerns.

GREEN LANE - SEIPI coordinates with the Bureau of Customs to facilitate incoming and outgoing shipments by obtaining priority clearances for SEIPI members.

HUMAN RESOURCES - SEIPI, through the Association of SEIPI Personnel Administrators (ASPA), is tasked to manage and policing ethical hiring practices within the industry as well as serving as a networking venue for best-known labor relation practices and information source for the industry on other labor related matters.

INCENTIVES - SEIPI plays an active role in harmonizing and standardizing the incentives provided by the government to semiconductor and electronics investors in the Philippines.

INDUSTRY BRIEFINGS - SEIPI conducts briefings on the overview, profile and performance of the industry for businessmen, educators, students, researchers, press, foreign institutions and management of member-companies.

INCOMING MISSIONS - SEIPI hosts incoming trade missions of foreign businessmen and government officials who wish to know more about the Philippine semiconductor and electronics industry.

INDUSTRY REPRESENTATION - SEIPI represents the concerns of its members and sits in the Board of various business organizations like DTI Export Development Council (EXCOM), Department of Science and Technology (DOST) Philippine Council for Industry, Energy and Emerging Technology Research and Development (PCIEERD) Steering Committee, Philippine Science High School System, Advanced Research and Competency Development Institute of the Philippines (ARCDI), among others.

INFORMATION - SEIPI serves as a databank for reports, presentations, studies and/or surveys developed, conducted or commissioned on the Philippine semiconductor and electronics industry.

INFORMATION TECHNOLOGY - SEIPI, through the Association of SEIPI Information Technology Executives and Professionals (ASITEP), is at the forefront networking committee addressing serious information technology and e-commerce issues and concerns in the industry.

INFRASTRUCTURE - SEIPI advocates for continued infrastructure development, and for the improvement of the overall business and investment climate of the country.

INTELLECTUAL PROPERTY RIGHTS - SEIPI coordinates and represents the members with the Intellectual Property Office on patents, trademarks, technology transfers and other IPO related issues.

INVESTMENTS - SEIPI provides assistance to local and foreign businessmen interested in venturing into the semiconductor and electronics industry in the Philippines. It counsels members and incoming businessmen on their questions relating to doing business in the Philippines.

JOINT EFFORTS - SEIPI collaborates with Joint Foreign Chambers-Philippine Business Groups (JFC-PBG) on industry concerns.

KEYNOTE SPEAKER - SEIPI invites keynote speakers in different meetings or events for industry topics.

LABOR RELATIONS - SEIPI coordinates with the Department of Labor and Employment for the upliftment of human relations and other labor issues, as well as compliance with the labor laws and regulations affecting the industry.

LEARNING SESSIONS - SEIPI provides learning programs for the CEOs and key executives of member-companies. Through its Networking Committees, managers and employees have access to various training programs aimed at improving their skills and competencies.

LOGISTICS - SEIPI, through the Association of SEIPI Logistics Managers, facilitates the movement of goods, with main lobbying efforts towards simplifying export and import rules and procedures with the Bureau of Customs (BOC) and Philippine Economic Zone Authority (PEZA).

LOCAL INDUSTRY ORGANIZATIONS LINKAGE - SEIPI also maintains a strong alliance with local business organizations like AMCHAM, PCCI, ECCP, MBC, ECOP, MBC, PMAP, IBPAP, and other industry chambers and organizations.

MANUFACTURING - SEIPI, through the Association of Semiconductor and Electronics Manufacturing Engineers of the Philippines (ASEMEP), provides support to member-companies

in benchmarking manufacturing services, technical trainings, and strategic planning. ASEMEP hosts the annual National Technical Symposium aimed at showcasing the technical expertise of SEIPI semiconductors and electronics engineers.

MEDIA CAMPAIGN - SEIPI takes the lead in media campaigns aimed at promoting the semiconductor and electronics industry, technology enhancement, and the Filipino electronics workers.

MISSION - SEIPI enhance and promote the Philippines' competitive advantages and growth opportunities in electronics manufacturing and technology business through Training, Research and Development (R&D)/Roadmap, Advocacy, Information, Networking and Services (T.R.A.I.N.S.).

NETWORKING - SEIPI offers excellent networking opportunities to its members. The organization has an extensive network of semiconductor and electronics technology leaders and professionals.

NETWORKING COMMITTEES - SEIPI Networking Committees (NWCs) act as convergence centers for managers from the different functional areas, which aim to develop programs addressing the various needs of its members, as well as provide a regular venue for the sharing of the best global practices among the members.

OPERATIONAL MANAGEMENT - The Office of the President (OP) manages and spearheads the implementation of the organization's various plans and programs for the benefit of its members. The OP is composed of a dedicated team of professionals handling various programs and services, and the network of officers and members of the different NWCs.

PHILIPPINE ELECTRONICS INDUSTRY WEEK - SEIPI initiated the declaration of "Philippine Electronics Industry Week" held on the last week of October every year, which aims to heighten public awareness and underscore the significance of the industry.

POSITION PAPERS - SEIPI prepares industry position papers and releases recommendations on pressing issues and concerns affecting the industry.

PRESS CONFERENCES - SEIPI organizes press conferences to further discuss/clarify some industry issues and concerns.

PRODUCT SHOWROOM - The SEIPI Headquarters houses a showcase of members' semiconductor and electronics manufacturing capabilities to local and foreign visitors and guests.

PUBLIC POLICY LEADERSHIP - SEIPI represents its members in arguments and deliberations in the roundtable discussions and Committee hearings of any new and existing legislation in

Congress. SEIPI extends the invitation and alerts its members about key policy issues and events, and focuses its efforts on influencing policy makers and opinion leaders.

PUBLIC RELATIONS - SEIPI cooperates with the members of the press and prepares articles on the latest developments in the industry, as well as the industry position on various issues.

PURCHASING - SEIPI, through the Association of SEIPI Purchasing Managers (ASPM), serves as a venue for sharing information on best procurement practices, localization of raw materials, supplier co-development and other related purchasing-related matters.

POWER - SEIPI, through the Technical Working Group on POWER works with government, distribution utility (DU), retail electricity supplier (RES) to spearhead all advocacies on improving the cost, supply and quality of power.

QUICK RESPONSE - SEIPI response to its members needs thru SEIPI Hotlines.

RECOGNITION - SEIPI acknowledges individuals or institutions that have supported and contributed in the development of the semiconductor and electronics industry in the Philippines through an annual ceremony called Partner of the Industry Awards (PIA) which is given every third or fourth week of January.

REGULATORY LAWS AND REGULATIONS - SEIPI updates member-companies on the latest regulatory laws and regulations affecting their business.

ROADMAP - SEIPI formulates the framework that maps out specific strategies for the development of the industry.

SCHOLARSHIPS AND GRANTS - SEIPI arranges for foreign scholarship grants and scholarships for engineering students and SEIPI employees.

SECURITY - SEIPI, through the Asset Protection Professionals of SEIPI (APPS), continuously works on the best security professional practices, which shares a common goal amongst SEIPI members. It also coordinates with the Philippine National Police and other concerned institutions.

SERVICE PROVIDERS AND SUPPLIERS - SEIPI gives representation to member-companies who give support to the manufacturing members. These are companies engaged in the supply of raw materials, equipment, logistics, gas, industrial estates, and services such as financial, insurance, I.T., software, environmental management, construction, and certification bodies.

SOCIALS - SEIPI organizes various social gatherings such as luncheons, golf fellowships, etc. to foster camaraderie among member companies and their colleagues in business and the government.

SPORTS FELLOWSHIPS - SEIPI organizes sports activities such as golf, badminton and bowling, and other recreational activities to foster camaraderie and provide members with opportunities to establish strong business contacts.

STRATEGIC MANAGEMENT GROUP - The policy creation, direction setting and decision-making duties rest on the 19-member Board of Trustees.

SUPPLY CHAIN MANAGEMENT - SEIPI leads in managing the integration of suppliers, customers, transportation, and information providers aimed at improving productivity and efficiency.

SURVEYS - SEIPI undertakes various surveys to gather pertinent information about the industry.

TAXES - SEIPI updates members on the latest tax laws and regulations that affect their business.

TECHNICAL EDUCATION - SEIPI partners with the Technical Education and Skills Development Authority (TESDA) and other technical institutions to provide quality technical education and skills development to the industry's technicians and operators.

TECHNICAL PAPERS - SEIPI holds an annual submission of technical papers providing SEIPI engineers an opportunity for recognition and a venue to share their technical competencies in the field of semiconductor and electronics technology.

TECHNICAL COMPETENCY ENHANCEMENT - SEIPI conducts a series of course programs in various disciplines which seeks to enhance the technical competencies of identified job functions namely, product and test, equipment, process, and quality/reliability/failure analysis engineering.

TRADE AND INVESTMENTS MISSION - SEIPI participates and represents the industry and its members in trade and investments missions, including Presidential state and official visits abroad.

TRADE FAIRS - SEIPI participates and organizes member-participation in international trade fairs and other events and/or activities incorporated which are being organized by SEIPI's counterpart organizations.

TRADE POLICY - SEIPI coordinates international trade policy issues with concerned government bodies that would affect Philippine electronics business (e.g. WTO, GSP, and other bilateral and multi-lateral agreements of the Philippines.)

UBIQUITY - SEIPI strives to be present in fora to represent members' interest.

UNITY - SEIPI provides a vehicle for unifying industry members and stakeholders.

VISAS - SEIPI assists members to facilitate the issuance of working permits for its expatriate members and visas for its Filipino employees going on official business trips abroad.

VISION - SEIPI adheres to the industry's vision of making the Philippines a globally competitive business environment for semiconductor and electronics technology.

WAFER FABRICATION - SEIPI endorses lab-scale wafer fab to support IC design.

WASTE MANAGEMENT - SEIPI supports the cause of cost-efficient waste reduction and promotes environmental management as a sustainable and necessary part of doing electronics business.

XENOCENTRIC - SEIPI adapts to cultures of MNC members and guests.

YARDSTICK - SEIPI provides a standard for industry policies and best practices.

ZONES - SEIPI works with 28 economic PEZA zones to address the concerns of its members/locators.
