# THE EVENT

Over the years, the **Philippine Semiconductor & Electronics Convention and Exhibition (PSECE)** organized by the **Semiconductor and Electronics Industries in the Philippines Foundation, Inc. (SEIPI)** has evolved into a global event that provides a favorable venue among companies and countries to showcase their latest technologies, benchmark standards, share best practices, establish business linkages, and strengthen government and academe relations.

After a two-year hiatus, the PSECE accounted for the following successes\* in 2022:

**134**

participating local and foreign companies

**211**

booths

**1,580**

Convention delegates

**10,172**

trade buyers and visitors

Likewise featured were **three (3) International Pavilions:**

\*considering the ongoing pandemic and venue constraints

# THE ORGANIZER

SEIPI is the leading organization of multinational and Filipino-owned semiconductor and electronics companies in the Philippines with **355** members, including manufacturing firms, allied and support industries, and the academe.

The Philippine semiconductor and electronics industry is a significant driver of the Philippine economy and the largest contributor to the country's manufacturing sector. In **2022**, electronics exports accounted for **US\$ 49.09 billion**, or **62.3%** of our country's commodity exports.

# OBJECTIVES OF THE PSECE

Promote the products and technical capabilities of local and international semiconductor and electronics companies through exhibition and technical papers.

Intensify awareness on the presence and contribution of the Electronics Industry to the Philippine economy.

Create a platform for manufacturing companies and potential suppliers to network through business matching, exhibitor's presentation and reverse trade fair.

Deepen the partnership between the government, academe, and the industry through a series of talks during the plenary session.
